- ✓ MSL FUSION TECHNOLOGY DROP-STITCHING
- ✓ DOUBLE RAIL SIDE REINFORCEMENTS
- ✓ 11' x 35.4" x 6"
- ✓ LIGHT & STABLE ON THE WATER

SIPABOARDS

About the All-rounder:

The All-Rounder is the board designed and built to take you everywhere. Heat bonded with light MSL materials, this board offers supreme balance, without sacrificing any ride characteristics. Paddle alone, in groups, with a toddler or a light traveler, or your dog. This board can take on everything! Repeat all day long.

With 11' in length and almost 40" wide, the new model is almost 40% lighter than the original best seller! Speed out and enjoy your best days on a paddleboard, ever.

Board description:

Even though lightly built, the **double drop-stitch core** and wide surface, offer the All-rounder a bigger carry load, so you'll be able to paddle with carry **loads up to 308 lbs**. Ready for a narrower, or wider stance, the board is designed to glide over seas, lakes or rivers. Equipped with 3 D-rings for upgrades and bungee straps, the board is ideal for coastline exploring.

The All-rounder is equipped with The SipaDrive® - SipaBoards' patented and CE certified fully-integrated Paddle Assist System. Designed to offer a safer and enhanced riding experience, it brings additional control over the board and ensures the rider ultimate control in varying paddling conditions. The **built in compressor** will inflate the board **to optimal pressure in 5-7 minutes**. Connected to a Bluetooth® remote control that can be mounted onto any paddle, the rider can start the inflation cycle, regulate the speed of their board and turn the **LED lights** on and off for a unique night time paddle experience.

The SipaDrive is powered by **144Wh a battery** in a watertight case, offering **up to 4 hours** of operation and pushing the All-rounder to speeds **up to 5km/h**.
